Topic   : "Knowing is not enough, we must apply
                                   Willing is not enough, we must do"

Venue   : **Media Hall**

Report: On 29th July the Department of Computer Application has conducted an awareness Programme for the students and gave awareness about the use of mobile phones for health through the MIME. It's clearly explained the merits and demerits of the use of the mobile phone to the students. So our students accepted the awareness and said that we will be using mobile phones in the correct way.

DEBATE

Department of Computer Application

Title	: Inter Department Meet
Category	: Speech
Date	: 05.08.2017
No. of Participation	: 249
Organizers	: Department of Computer Application
Topic	: Is social media good for Society
Venue	**: UG Classroom**

Report: On 5th August the department of Computer Application was conducted debate about the theme of "Is social media good for society. Their talks about Students today have never lived in a world without social media. Facebook, Twitter, and Instagram are a few of the most popular social-media websites and apps. They can be a fun way to connect with friends and family, especially those who live far away. Sometimes, people use social media to find jobs. But social media also attracts cyber bullies and trolls who seek to anger or annoy people. And hackers use social media to steal people's personal information.
