Auxilium College of Arts & Science for Women  
Regunathapuram, Pudukkottai(DT) – 622302

117, 3rd Cross, Kuvempu Layout,  
Gubbi Cross, Kothanur, Bangalore – 560077.

Department of Computer Application Auxilium College, Regunathapuram in association with Capztone Innovative Solution, Bangalore conducted one day webinar on **Introduction to Data Science and Data Visualization** at 28<sup>th</sup> July 2020. The webinar focused on various

Responsibilities that a Data Scientist must fulfill and understand as to what industries seek from employing Data Scientists.

The programme started at 10:30 am with the welcome address by **Asst.Prof Mrs. S.Padmavathi**.

The Resource Person **Mr.Karthik Data Scientist Captzone Innovative Solution, Bangalore** shared his Research work , Data science and Data visualization. He gave several examples of data visualization which have been developed in their data visualization include pie charts, line charts, graphs, bar charts, scatter plots, histograms, and heat maps.

The main objective of this webinar is to help companies interpret and manage data and solve complex problems using expertise in a variety of data niches. Data science helps to build business logic, and it is more iterative than building experience. They were totally 132 students and 10 staff members participated in our department. So we hope it was very useful to the students and also acquired new technology from that webinar.

The vote of thanks which was given by **Asst.Prof Ms.A.Daisy Rani**. Finally E – Certificate is provided to all the participants.
