LAUDATO SI' WEEK 2022

Department of Physics celebrated Laudato Si Week 2022 on 24th May 2022 on our college premises. We created awareness on "The decline of biodiversity is no more & restoring social systems with nature." On that day, around 1024 students of our college participated. More than ten students explained the causes and methods of restoration of biodiversity and took a pledge with an informative placard on the theme of the day. All students benefited and gained knowledge about the conservation of environmental resources and social issues.

AUXILIUM COLLEGE

TREE PLANTATION

Department of Physics organized a tree plantation on 30th May 2022 in our college to celebrate the Ecology Week of 2022 (Laudato's Week 2022). In such a great event, one hundred and five students from our department participated with all six faculty members. In this programme, nearly 10 tree saplings like Fabaceae, Combretaceae etc. were planted on our college premises. This programme helped us to learn about Ecology and how to maintain a green environment. Overall, the programme was carried out successfully under the presence of our Principal, Sr. Dr P.Selvarani, and Vice Principal, Sr. Dr M.Sebasti Jeya Pushpa.
